

Pitching Essentials

Zone-In/Z one Isolator's & Frame

Parts:

- 4 – 29.75" Side Tubes
- 4 – Red end caps
- 2 – Legs
- 1 – U Shaped for top
- 1 – 42.5" Bottom Tube
- 14 – Ball-type Bungee Cords
- 2- Zone-Isolators
- 1 – Zone-In

Assembly:

Assemble frame according to assembly diagram (sheet 2)) and note the position of the doubled flared side tubes that must go into the base. Remove red shipping caps and attach them to end of legs. Legs will be arched outward when assembled (see Figure 3) Using a cooking oil or WD-40 to fit top piece is usually helpful

Attach Zone-In to frame using the 14 ball-type bungee cords (Figure 2) Attach Zone Isolator to Velcro strips (up to 21 different configurations), Unit will look like Figure 1 when completed

Loop corner bungee cords (see Figure 1.2)

Note: Assemble tarpaulin to the frame beginning at the top.

Set up the Zone In behind the plate where the catcher usually positions himself/herself

Figure 1

CAUTION
Wear gloves when unpacking and assembling frame.
